DETAILED ACTION

Response to Amendment

1. The action is responsive to the arguments and amendments filed on 29 December 2003. Claims 1-15 are pending.

Drawings

2. The informal drawings, with regards to Figures 1 and 2, filed in this application are acceptable for examination purposes. Because the application is in condition for allowance, applicant will be required to submit new formal drawings.

Allowable Subject Matter

3. Claims 1-15 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Claims are allowable over the prior art because testing the mechanical properties of an interphase region of a fiber/matrix composite under dynamic loading conditions, providing a dynamic load to the fiber/matrix interphase, using the processing means to store the load signal in the memory means, and generate information representing the mechanical properties of the interphase of the fiber/matrix composite is not found, taught or suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
